

THE LIVER QUARANTINE

"TAKING HIS MEALS OUT."

Hurried eating has ruined many a man's stomach. The digestion-destroying process is gradual, often unnoticed at first. But it is only a short time until the liver balks, the digestive organs give way, and almost countless ills assail the man who endeavors to economize time at the expense of his health.

A torpid liver causes a quarantine of the entire system. It locks in the diseased germs and body poisons and affords them full play, inviting some serious illness.

In families where August Flower is used, a sluggish liver and constipation are unknown, so are all stomach ailments, as well as indigestion, dyspepsia, heartburn, headaches and kidney and bladder affections. No well-regulated family should be without this standard remedy.

Snaps.

(William J. Burtcher.)

Make the most of the things that promise the least.

There are "onions" in the garden of life that bring tears into our eyes when tampered with.

As much as is put into life one gets out of it. Put in nothing, get out nothing.

If there's luck in odd numbers a man generally doesn't find it out until after he is married.

Don't look for the poor to return the favors you have kindly extended. God will attend to that.

When it is intimated to the man headed in that direction that he will land in the bad world, he seeks consolation in the thought that he will have lots of company. True enough! But what kind?

If a man does not do anything worse than go to the club at night when he ought to be at home with his family, he may not be such a bad fellow, but if he never does anything better he will stand a mighty poor show for heaven.

If ministers of the gospel would fling the truth, the whole truth, and nothing but the truth at those members of their churches who are pointed out by the sinners as being no better than they are, some of the empty pews would probably be filled by the sinners who would flock in to hear it.

Don't attempt to rid yourself of a tiresome guest by bringing out the family album. You might be accorded the same hospitality when you return the visit.

A disordered stomach may cause no end of trouble. When the stomach fails to perform its functions the bowels become deranged, the liver and kidneys congested, causing numerous diseases, the most fatal of which are painful and therefore the more to be dreaded. The important thing is to restore the stomach and liver to a healthy condition, and for this purpose no better preparation can be used than Chamberlain's Stomach and Liver Tablets.

BIG GAMBLERS IN WHEAT

Gates Pool Victims Threaten Injunction to Prevent Squeezing.

Those Who Are Caught in the Keen Jaws of the Trap Are Sentenced Over the Country.

Chicago, April 11.—Plungers who have sold wheat to the Gates pool for May delivery are becoming nervous, and threats of an injunction to prevent squeezing are made.

The shortage is still believed to be about 18,000,000 bushels. The manipulators are holding the price for May steadily around \$1.16. They have the situation completely in control, and can take in and pay for all the wheat which the unlucky shorts can deliver.

The trapped men are scattered over the country. There is a big foreign short, though many of the foreigners covered when the price was run up to \$1.21 in February. New Yorkers are supposed to have sold 6,000,000 to Gates, and Minneapolis and St. Louis are short several millions each.

Men who are in the net here are beginning to talk "court injunctions." In an oats corner carried through by Jim Patten, three years ago, the shorts went to court and got a decision "that a corner was against the laws of the state." They could not be compelled to settle at a fictitious price, and the court fixed a price of what it said was a legitimate value.

If the men in the Gates trap "welch" the business of the board of trade will receive a jolt from which it may never recover. The action of the bears in the oat corner killed business for a year.

"PEOPLE'S FRIEND" IS DEAD.

Death of Dr. Herman Schroeder, Who Was Banished From His Native Land.

Bloomington, Ill., April 9.—D. Herman Schroeder, known as the "People's Friend," was found dead in bed at his home, having telephoned for a physician a few minutes before.

He was a native of Prussia and was 84. He was banished from his native land for political reasons. His wife, it is said, was a German princess.

He located in Bloomington in 1852, and amassed a large fortune in investments and horticulture. He founded the cities of Gilman and El Paso. He also built Schroeder's opera house, a famous theater of Bloomington for 46 years.

MISSISSIPPI FASTER FOUND.

He Was Living in a Hollow Tree and Was None the Wiser For Self-Deprivation.

Brasher's Real Estate Column.

All Kinds of Real Estate Bought and Sold or Exchanged by John B. Brasher, Madisonville, Ky.

TIMBERED LANDS A SPECIALTY.

Parties desiring to purchase a city home in Madisonville or a farm in Hopkins or adjoining counties, or parties desiring to sell or exchange property of any kind in the character of real estate will find it to their interests to call at the County Clerk's office in Madisonville, Ky., before making a deal with other parties. I always have a variety of houses and lots on hand and also a variety of farm lands which I will sell at reasonable prices and on easy terms, or if it does not suit parties to buy, I will trade property on a fair basis of exchange. I have at all times customers desiring different kinds of homes and farms and at all prices, consequently I am constantly in the market for all kinds of real estates, and am in position to make any sized trade or to handle any kind of a deal. I will buy and pay cash for timbered lands at reasonable prices, so if you are in the market to buy or sell, come to see me and I can accommodate you.

Persons desiring to locate in Madisonville or Hopkins county can not over estimate the advantages they will find here over other towns and counties in the State. The farm lands of Hopkins county will average well with other farm lands of Kentucky—producing everything that can be raised in any other county in the State—and we have here a ready cash market for every thing the farmer has to sell. The coal mines of our county employ thousands of hands and they are paid off twice a month in lawful money, thereby enabling them to pay cash for everything they buy. The coal mines alone bring hundreds of thousands of dollars into our county every year that other counties do not have and that money is principally left in the country and is spent with our farmers and business men. We have one of the finest schools in Madisonville in the State, and it is only a question of a short time when we will have one more if not two more railroads running through Hopkins county. Property here is steadily advancing and will continue to advance, therefore, parties desiring to locate in this county will act wisely to do so now.

I now own the following pieces of property which I will sell at the prices named on easy terms:

No. 1.—A splendid lot 168 feet wide and 224 feet long, with a good two story frame house thereon, in northwestern portion of Madisonville. Said lot is beautifully situated in the "White Settlement" of said town, with a street on three sides of it, plenty of shade trees and fruit trees in the yard. The building thereon is a nine room, two story dwelling, in good repair; the rooms are nicely papered and have good grates and mantels, good water, servant room, new brick milk house and all other necessary outbuildings. Price \$2,500. This is the cheapest piece of property in Madisonville and cannot be duplicated for \$3,000. I drew this property in the distribution of lots in the "White Settlement" addition to Madisonville is the reason I can sell it so cheap. Cottages with five rooms and a small lot are bringing more money in Madisonville than I ask for this two story dwelling and large lot. If you want to buy a home do not fail to see this property before making a purchase.

No. 2.—A good lot 78½ feet wide and 228 feet long, with a frame cottage thereon, situated on South Main street opposite my residence; said cottage has five rooms and a good cellar; the rooms are nicely papered and are finished in hard wood; the lot is covered in fruit trees and shrubbery; good cistern, good garden spot, stables, smoke house and other outbuildings. Price, \$2,500. This property is cheap, as vacant lots are selling in this portion of Madisonville for more money than I ask for this splendid house and lot.

No. 3.—A nice lot 76 feet wide on North Seminary street, running through from Seminary street to Dampney street, with a new two story frame dwelling thereon, with 7 rooms nicely plastered, bath room and pantry and six cabinet mantels; good cistern, stables and buggy house, coal house and wood house; fence all new and good brick walks around the building. Price, \$3,350.

No. 4.—A fine corner lot with five room brick cottage thereon, near the magnificent home of C. B. Tate, fronting on Arch street 80 feet, running back with the Island Ford street 150 feet; the rooms are beautifully papered and have cabinet and iron mantels therein; good water and all necessary outbuildings. Price, \$2,250. This property can not be duplicated in Madisonville for \$2,500.

No. 5.—188 acres of land, all bottom land, 1-2 mile south of Nebo on the Nebo and Dalton road, with a 2-story brick residence thereon, with 8 rooms and 2 halls, plastered and papered; good grates and mantels; 4 tobacco barns in good repair, 2 tenant houses, 1 very fine large stable, 46x50, new; 3 wells, 1 cistern, 4 ponds; good fencing all around the farm; 6 acres in timber, balance in cultivation; about 50 acres in meadow. Price \$8,500, easy terms. This property does not belong to me but has been placed in my hands for sale.

No. 6.—A new brick block on Sixth street, near the court house in Hopkinsville; said block consists of three nice store room and seven offices. The store rooms are all occupied, one with furniture, one with dry goods and one with groceries, and rent for \$25 per month each. The front offices, four in number, rent for \$8 per month each, and the back offices, three in number, rent for \$6 per month each. The rental of this property will pay 10 per cent. interest on \$15,000 and would be a splendid investment for parties desiring to get big interest on money. The building has all the conveniences that could be desired; nice plate glass show windows, water works, electric lights, metal coal house, etc. Price reasonable. See me in person for terms and prices.

No. 7.—250 acres of land near Beulah, in Hopkins county. About one half of this land is in cultivation and the other half in timber; it has two good veins of coal, number 9 and 11, near enough to the surface to mine profitably; these lands produce well and would make a good farm if properly cultivated. Price \$15 per acre.

No. 8.—175 acres of fine coal land near Dawson Springs, ¼ mile north of the I. C. railroad; about one-half of this land has been in cultivation and the other half is covered in fine timber, consisting of white oak, red oak, poplar and hickory; the coal is nearly 4½ feet thick with about 10 feet of hard slate for a roof. The coal has been analyzed and is of a fine quality and contains less than 2 per

cent of sulphur. I will guarantee the quality, the thickness and the analysis of the coal, and parties who may purchase it need not pay for it until they find it just as represented here. Price \$20 per acre.

No. 9.—80 acres of land on the I. C. railroad one mile west of Ilsey switch. About one-half of this land is in the bottom and is very rich soil; it is covered in fine gum timber and would make a splendid little farm; the other half has been cultivated and lies in the hills; a fine vein of coal about 4½ feet thick is under that part that lies in the hills. Price \$20.00 per acre.

No. 10.—123½ acres of land 6 miles west of Madisonville, near the Crook creek road; nearly all in cultivation; good orchard, fairly good residence with 5 rooms; good stable, large and roomy; 16 acres now in wheat, which is very fine; about 40 acres in meadow; good cistern and good well; two tobacco barns; 3 ponds; good slat and wire fence around the farm and good tenant now on the farm working on the shares; situated in a splendid neighborhood and near a good school; 5 acres in timber. Price \$35 per acre, on easy terms. This piece of property does not belong to me but has been placed in my hands for sale.

No. 11.—House and Lot on Mill St. in Madisonville, Ky. Said lot fronts on Mill street 97 feet, running back 230 feet and is within one half square of the public school building. The house is new with 5 rooms, bath room, pantry and hall, plastered throughout, with 4 cabinet mantels and tile hearths and plain mantel and grate in kitchen; red cedar shingle roof and good cistern. Price \$2,350; part cash, balance on easy terms if so desired. This property has been placed in my hands for sale.

No. 12.—118 acres of land on Tradewater river in the south edge of the town of Dawson Springs, in the edge of Caldwell county. All of this land is in cultivation with a good fence around it. 15 acres in meadow but no buildings thereon. Price \$1,100. This property has been placed in my hands for sale. See me for terms.

No. 13.—43½ acres of land near Daniel Boone Mines, with a double boxed house thereon, good young orchard, good stable, large enough for seven head of stock, good tobacco barn; 5 acres in meadow and three acres in very fine timber with a splendid slat and wire fence around the farm; 20 acres of this land is in the bottom and is very rich soil, balance is on the ridge but all of it can be cultivated. One-half of the mining privileges have heretofore been sold. Price \$1,000. This property has been placed in my hands for sale. See me for terms.

C. railroad; good public road running through the land. No. 17.—2,500 acres of coal land 2 miles south of Nortonville, extending from the L. & N. to the I. C. railroads, with two good veins of coal; one vein from 4½ to 5 feet thick with slate roof, and the other vein from 5 to 6 feet thick with limestone for a roof. An opening or shaft can be made on either railroad, plenty of timber for bank props, cross ties, etc. About one-half of this land is in fee simple and the other half mining rights.
